Introduction _____	1
<i>Hans Flaatten, Rui P. Moreno and Andrew Rhodes</i>	
A. Concepts _____	5
What is an ICU? _____	7
<i>Rui P. Moreno, Ben Singer and Andrew Rhodes</i>	
Concepts: intensive care units (ICUs) and intermediate care units _____	15
<i>Jean-Louis Vincent and Jacques Creteur</i>	
The role of the intensive care unit in the modern hospital _____	21
<i>Jan Wernerman</i>	
Interfacing the intensive care unit and evaluating it – admission and discharge policies _____	27
<i>Rui P. Moreno and Andrew Rhodes</i>	
Interfacing the ICU with the next of kin _____	35
<i>Albertus Beishuizen and Armand R.J. Girbes</i>	
The rapid response system (management, organisation) _____	41
<i>Anders Aneman</i>	
Integrating elective workloads into an emergency setting in the intensive care unit _____	53
<i>Gavin M. Joynt and Charles D. Gomersall</i>	
Special admission paths: sepsis _____	65
<i>Ricard Ferrer, Ana Navas, Maria Luisa Martinez, Candelaria de Haro and Antonio Artigas</i>	
Special admission paths: trauma _____	73
<i>Jonathan Ball, Rupert Pearse, Andrew Rhodes and Rui P. Moreno</i>	
Special admission paths: acute brain injury _____	79
<i>Maria Giulia Abate and Giuseppe Citerio</i>	
The ICU without walls _____	87
<i>Ken Hillman, Jack Chen and Anders Aneman</i>	
B. Structures, monitoring, and personnel _____	97
How to design a new ICU _____	99
<i>Michael Hiesmayr, Philipp G.H. Metnitz and Markus Haisjackl</i>	
Minimal structural requirements for ICUs and HDUs _____	107
<i>Patrick Ferdinande</i>	

<b>Minimal training requirements for ICU physicians</b> _____	<b>117</b>
<i>Armand R.J. Girbes, Albertus Beishuizen and Jan G. Zijlstra</i>	
<b>Minimal training requirements for ICU nurses</b> _____	<b>123</b>
<i>Ruth Endacott and Julie Scholes</i>	
<b>Preparation and training of critical care pharmacists</b> _____	<b>133</b>
<i>William E. Dager, Rob Shulman and Judith Jacobi</i>	
<b>Requirements and standards for treating children in intensive care units (ICUs)</b> _____	<b>143</b>
<i>Paolo Biban</i>	
<b>Do we need specific cardiac (non-operative) ICUs?</b> _____	<b>155</b>
<i>Elias Knobel, Marcia Makdisse and Marcos Knobel</i>	
<b>Do we need specific neurocritical ICUs?</b> _____	<b>167</b>
<i>Jorge Luiz da Rocha Paranhos, Gustavo Trindade Henriques-Filho and Odin Barbosa da Silva</i>	
<b>Designing burn ICUs</b> _____	<b>175</b>
<i>David M. Baron, Lars-Peter Kamolz and Philipp G.H. Metnitz</i>	
<b>Design features of the ICU from the patient and family perspective</b> _____	<b>181</b>
<i>Nils Theuerkauf, Ulf Guenther and Christian Putensen</i>	
<b>Minimal standards for physiological monitoring in the intensive care unit</b> _____	<b>191</b>
<i>Maurizio Cecconi, Lorenzo Spagnesi, Mark Hamilton, Rui P. Moreno and Andrew Rhodes</i>	
<b>Medical work patterns: The impact on quality and burnout</b> _____	<b>197</b>
<i>Dierk A. Vagts, Kristina Klöcker and Christian W. Mutz</i>	
<b>Nursing work patterns</b> _____	<b>205</b>
<i>Yên-Lan Nguyen, Sandrine Dray, Aude Soury-Lavergne and Bertrand Guidet</i>	
<b>Physician extenders</b> _____	<b>213</b>
<i>Maria Wittmann, Daniela Dewald and Christian Putensen</i>	
<b>Organising the workflow in an ICU</b> _____	<b>225</b>
<i>Hans U. Rothen</i>	
<b>Evaluating staff performance in the ICU</b> _____	<b>241</b>
<i>Armand R.J. Girbes and Jan G. Zijlstra</i>	
<b>C. Processes</b> _____	<b>249</b>
<b>The role of ergonomics in modern medicine</b> _____	<b>251</b>
<i>Yoel Donchin</i>	
<b>Creating the ideal ward round</b> _____	<b>259</b>
<i>Martha M. Kennedy, Deborah J. Baker, Ayse P. Gurses and Peter J. Pronovost</i>	
<b>Smoothing the way: Improving admission to and discharge from the ICU</b> _____	<b>269</b>
<i>Hannah Wunsch, Yên-Lan Nguyen and Derek C. Angus</i>	

<b>Surge management for critical care leaders</b> _____	<b>277</b>
<i>Michael D. Christian, Bernard Lawless, Julie Trpkovski and Jeffrey R. Dichter</i>	
<b>Evaluating and improving the effectiveness of our practices</b> _____	<b>295</b>
<i>Stephen Streat</i>	
<b>The contribution of technology assessment</b> _____	<b>307</b>
<i>Carl Waldmann, Max Jonas, Liza Keating and Ian J. Rechner</i>	
<b>Evaluating and improving organizational outcome</b> _____	<b>317</b>
<i>Hans Flaatten</i>	
<b>Education and training teamwork using simulation</b> _____	<b>323</b>
<i>Guttorm Brattekjø</i>	
<b>Electronic prescribing: minimal requirements</b> _____	<b>335</b>
<i>Kirsten Colpaert and Johan Decruyenaere</i>	
<b>Should research be together with clinical practice?</b> _____	<b>345</b>
<i>Sten Rubertsson</i>	
<b>D. Outcomes</b> _____	<b>349</b>
<b>Patient safety – An essential paradigm in intensive care medicine</b> _____	<b>351</b>
<i>Andreas Valentin</i>	
<b>Evaluating and reporting nosocomial infections</b> _____	<b>359</b>
<i>Stijn I. Blot, Sonia O. Labeau and Jordi Rello</i>	
<b>Self-reporting of errors and adverse events in the intensive care unit (ICU)</b> _____	<b>369</b>
<i>Hans Flaatten</i>	
<b>Benchmarking the intensive care unit</b> _____	<b>375</b>
<i>Rui P. Moreno, Ana Cristina Diogo, Susana Afonso de Carvalho and Andrew Rhodes</i>	
<b>Nosocomial infection: outcome indicator?</b> _____	<b>383</b>
<i>Mercedes Palomar Martínez</i>	
<b>The role of risk profile management in the evaluation of the intensive care units</b> _____	<b>391</b>
<i>Rui P. Moreno, Philipp G.H. Metnitz, Andrew Rhodes and Peter Bauer</i>	
<b>E. Future approaches</b> _____	<b>397</b>
<b>The intensive care unit of the future</b> _____	<b>399</b>
<i>Rui P. Moreno and Andrew Rhodes</i>
